

Independence for all abilities in water

“ Floatsation aids allow swimmers with Special needs to be independent in the water.

They help create a safer centre of gravity and can provide an effective learning curve towards becoming an independent swimmer.

The effectiveness of each buoyancy aid keeping the swimmer in the water instead of above the water helps to boost essential water confidence ”

Jo Eames
Director of Sport
Valence School, Kent

Floatsation TM comes in 4 new modules		
Product type	Description	Colour
Floatsation TM 'The Big Citrus'	The Big Citrus is a larger rectangle which is 20 balls long and 9 balls across, this gives max support as a good starting point for all. It can support 2 people at one time	A mix of Orange, Green and Yellow
Floatsation TM 'The Citrus'	The Citrus is a little smaller than the Big Citrus and is made up of small balls, with the addition of a pillow for those of us who like to rest our heads while in the water	A mix of Yellow, Green and Orange
Floatsation TM 'The Citrus Burst'	This is a square 8 by 9 balls and can be used in many different ways as a progression towards total independence in the water	Orange, Green and Yellow
Floatsation TM 'The Citrus Flexi-tube'	Just a tube, but an adaptable device to those who need a little extra support in the water towards independence. It brings a variety of support and hence confidence to all users. It is also suitable for play by swimmers of all abilities	Orange, Green and Yellow

FloatsationTM
by Martin Mansell, winner of 4 Gold, 5 Silver and 3 Bronze medals at 2 Paralympic games.

Martin believes that everyone should be able to enjoy the freedom that being in water brings.

Floatsation™ (formerly known as Original Floatsation and New Age Floatsation) is the original; unique matrix of balls giving total support and independence in water for all abilities, disabled and non-disabled alike.

The Floatsation™ product range has wide applications both in the leisure market as an inclusive swimming/floatation aid and as hydrotherapy aid in the pool. The products enable independence in the water acting as an exercise unit and an aid to relaxation at the same time; as well as being a fun device in the water for all.

Enjoyment in Water

The original product has now been redeveloped as Floatsation™ by Martin Mansell, winner of 4 Gold, 5 Silver and 3 Bronze medals at 2 Paralympic games. Martin believes that everyone should be able to enjoy the freedom that being in water brings.

Floatsation™ can enable everyone to have fun in the water in a safe and confident way. It enables users to have fun while still allowing them to develop:

- Confidence
- Increased Self Esteem
- Independence
- Aquatic Skills
- Water awareness
- Spatial awareness
- Team Skills
- Relaxation in water
- General relaxation
- Safe exercise in water for all abilities and ages

All Floatsation™ products are made from high quality netting containing a random mix of bright citrus colours (yellow, green and orange)

The Big Citrus

The Big Citrus is a large rectangle which is 20 balls long and 9 balls across, this gives maximum support as a good starting point for all. It can support 2 people at one time.

The Citrus

The Citrus is a little smaller than the Big Citrus and is made up of smaller balls, with the addition of a pillow for those of us who like to rest our heads while in the water.

The Citrus Burst

The Citrus Burst is a rectangle 9 by 8 balls and can be used in many different ways as a progression towards total independence in the water

The Citrus Flexi-Tube

The Citrus Flexi Tube is just a tube, but an adaptable device for those who just need a little extra support in the water towards independence. It brings a variety of support and hence confidence to all users. It is also suitable for play by swimmers of all abilities.

To help users get the best possible use of Floatsation™ products in a safe and controlled manner, we are pleased to announce the availability of the Floatsation™ Training Session.

Who is the training session for?

- Teaching professionals
- Medical professionals
- Swimming professionals
- Disability professionals

How long is the training session?

- 3 hours of training which fits in with your CPD portfolio and is only half a days training.

Who delivers the course?

- Martin Mansell
ASA Swimming Teacher,
9 times Paralympic Swimmer and former GB team Swim coach.

What does the training session include?

- Introduction
- A demonstration of all Floatsation™ devices in the water
- The opportunity for participants to work with the devices
- A demonstration of Floatsation™ devices with children
- Hands on training for participants
- Review and a Q&A session
